About Me

Enthusiastic and motivated website developer with a passion for creating engaging and user-friendly web experiences. Eager to apply my skills in front-end and back-end development to contribute to innovative projects and grow professionally in a dynamic environment.

Professional Experience

Junior Software Developer
iCoderz Pvt. Ltd. — Ahmedabad, India
April 2024 – Present

- Promoted to full-time Junior Developer after successfully completing a 6-month internship.
- Working on scalable backend solutions using Laravel, implementing RESTful APIs, role-based authentication, and service-layer architecture.
- Collaborating with the frontend team using Vue.js to create dynamic and responsive web applications.
- Managing and optimizing MySQL databases with a focus on performance, indexing, and query optimization.
- Involved in real-time feature planning, debugging, and deployment processes using best development practices.

Backend Development Intern

- Contributed to live projects by building and integrating backend features using Laravel and MySQL.
- Gained hands-on experience with API development, validation, and database schema design.
- Assisted in developing interactive UI components with Vue.js and collaborated with the design team.
- Learned agile workflows and version control practices in a professional development environment.
