

KETAN PILLAI V

Full-Stack Software Engineer

Ahmedabad, India | 9054293809 | ketanpillai@gmail.com
github.com/ketanven | linkedin.com/in/ketan-venkatesh-ba1663277

PROFESSIONAL SUMMARY

Full-Stack Engineer with 2+ years of experience across MERN, Laravel, and Django stacks, building customer-facing web apps, admin panels, and REST APIs. Shipped and maintained products including a subscription platform with Stripe/Razorpay billing, an e-learning admin console, and multiple internal enterprise systems.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, Next.js, Vue.js, Context API, React Hooks, React Router, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Laravel, Django, Django REST Framework, REST APIs, JWT Authentication, RBAC

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Cloud & DevOps: AWS (EC2, S3, RDS, ALB, Secrets Manager), Docker, GitHub Actions (CI/CD), Linux Administration

Payments & Integrations: Stripe, Razorpay, Firebase (Realtime DB, Firestore), OTP/SMS APIs

Concepts: OOP, Design Patterns, Microservices Architecture, Agile Development

Tools: Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Junior Software Developer | iCoderz Pvt. Ltd.

Apr 2024 – Present

SourceCAD — Online CAD & Engineering Learning Platform — *Node.js, React.js, Next.js, Express.js, PostgreSQL*

- Delivered REST APIs and built the complete React.js admin panel for a CAD/engineering e-learning platform.
- Engineered a full subscription and billing module (Stripe + Razorpay) covering plan changes, webhooks, and invoicing, spanning both frontend UI and backend logic.
- Built role-based learning-path UI, team/enterprise dashboards, and compliance-tracking views in React.js, consumed by web, admin, and mobile apps.
- Worked across the stack (Node.js/Express APIs to React.js UI) within a small cross-functional team.

Go Payana — Ride-Hailing Platform — *Laravel, Vue.js*

- Built REST APIs and the complete Vue.js admin panel for a ride-hailing platform covering rider and driver apps.
- Implemented real-time driver matching, live location tracking, and OTP-based authentication across mobile and admin surfaces.
- Worked in a small team alongside a manager and mobile app developer.

ToMoveOut — International Expat Marketplace — *Laravel, JavaScript*

- Built APIs, the admin panel (Laravel Blade), and the main website frontend (JavaScript) for an international relocation marketplace supporting multiple languages.
- Implemented advanced search/filtering, map-based listing views, in-app messaging, and an AI assistant feature end-to-end.

PMS — Internal Project Management System — *Laravel, Vue.js*

- Contributed APIs and Vue.js dashboard views to an internal PMS, including real-time check-in/timer tracking and Kanban task boards.
- Built role-based views (CEO/Manager/Employee), activity logging, and a trainee training-resource module.

Backend Development Intern | iCoderz Pvt. Ltd.

Oct 2023 – Mar 2024

- Contributed to production Laravel applications and REST API development under senior engineer guidance.
- Assisted with database design, validation, debugging, and deployment activities.
- Collaborated with frontend and QA teams to translate business requirements into working features.

PROJECTS

WorkHub — Project Management System — *Django, Django REST Framework, MySQL*

Modular project/task management system with role-based access (Admin, Manager, Team Member) and REST API layer; split into API, web, and admin services.

[GitHub \(API\)](#) | [GitHub \(Web\)](#) | [GitHub \(Admin\)](#)

Milkly — Dairy Subscription & E-Commerce Platform — *Laravel 12, Vite, Tailwind CSS, Stripe, Razorpay, JWT*

Full-stack e-commerce and recurring-subscription platform with customer storefront, seller panel, and multi-level admin console; integrated Stripe/Razorpay payments and scheduled delivery slots.

[GitHub](#)

E-Wheels — Smart Vehicle Rental & Reservation System — *Laravel 12, Tailwind CSS, AdminLTE 4, Firebase Realtime DB, Firestore*

Vehicle rental platform with dynamic booking widget and an AdminLTE dashboard; synchronized admin accounts in real time between MySQL/SQLite and Firebase.

[GitHub](#)

Furni — Django E-Commerce Furniture Store — *Django, SQLite, Bootstrap, Razorpay, Textbelt OTP API*

Two-sided buyer/seller e-commerce platform with cart, wishlist, Razorpay checkout, and SMS-OTP password recovery.
